INTERNATIONAL SEARCH REPORT

International application No.

PCT/JP2004/012330

Be	x No.	Т	Nucleotide and/or amino acid sequence(s) (Continuation of item1.b of the first sheet)				
	, and the sacety						
1.	Witl inve	n regard	regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed ntion, the international search was carried out on the basis of:				
	a.	type (of material '				
		×	a sequence listing				
			table(s) related to the sequence listing				
	b.	forma	at of material				
			in written format				
		×	in computer readable form				
	c.	time o	of filing/furnishing				
			contained in the international application as filed				
		×	filed together with the international application in computer readable form				
			furnished subsequently to this Authority for the purposes of search				
2.	[X]	In ad	dition, in the case that more than one version or copy of a sequence listing and/or table relating thereto has been filed				
		or fur	nished, the required statements that the information in the subsequent or additional copies is identical to that in the				
		appli	cation as filed or does not go beyond the application as filed, as appropriate, were furnished.				
3.	Add	itional	comments:
